

Is Your Billing and Practice Management Software **SMART ENOUGH** to be a vital member of your Staff?

ESTHER is ...
and she loves her job!

- ESTHER is cutting-edge Artificial Intelligence that continually monitors your patient accounts to identify both FINANCIAL as well as MEDICAL issues that need to be addressed.
 1. Automatically analyzes your patient data
 2. Identifies issues and makes decisions
 3. Communicates to your staff like a member of your team
 4. Initiates activities, as well as responds to problematic situations
- No need to run reports only to find them instantly out-of-date.
- ESTHER learns from history to maximize reimbursement from each insurance company.
- ESTHER has been PROVEN to bring in more revenue, reduce costs and increase income significantly.
 1. Double your efficiency
 2. See more patients
 3. Receive higher reimbursement
 4. Shorten your payment cycle
 5. Stay current with insurance and patient follow-up
 6. Enjoy being in CONTROL of your medical practice
